**VTech Bail Twine**

Lab test results show the lowest leachout compared to other tested twine.

The prewound, disposable nylon twine twine eliminates cross-contamination. Available in 30m and 90m lengths. Extremely strong with 70kg breaking strength. Comes in handy cardboard hub cartridges that mount easily on the VTech Bail Reel.

---

**Other Twine**

Also available from EnviroEquip are a range of stainless steel flexible cables, PVC coated steel wire and nylon poly twines.

**Bailer Brush**

This nylon brush is perfect to ensure complete decontamination of bailers. The brush is 64.5mm in diameter and 76.2mm long with a 914.4mm wire handle.

---

**Storage & Retrieval Reels**

Made of tough weather resistant polyethylene, this reel is an ideal way to retrieve and store cable/rope. Maximum capacity of 65m of polyrope, 160m of twine, or 100m SS cable. Comes with built-in stand.

---

**VTech Bail Reels**

The VTech bailer retrieval system is an easy yet cost-effective way to speed up sampling whilst eliminating cross contamination. It features a sturdy reel refillable with VTech bailer twine rolls. The unit features a sturdy 18cm diameter reel with free-spin preventer that makes bailing and sampling faster and easier. Top handle is easy to hold while winding or releasing.
**Bailer Carry Case**

- Protect your reusable bailer in a handy case
- Add life to your expensive bailers
- Rugged PVC cases keep your bailers clean and scratch free
- Provide an ideal decontamination vessel
- Screw-on end cap for easy access
- Long enough to store accessories like bottom emptying devices

Made of PVC with threaded cap on one end, these bailer carrying cases are essential for transporting and storing expensive reusable bailers, especially in rugged field conditions.
